

Problems correct on Pre-test/Post-test

Pre-test given October 25 th				
Number of Problems Correct				
0-3	4-7		8-12	
Sam	Chiya	Adisen	Nathanial	Ismael
Kevin	Jescey	Eric	Caitlyn	
Raven	Lily	Madison	David	
Victoria	J.J	Mark	Quintin	
Jaylynn	Mark	John	Julia	
Sonya	Ashley		Alex	
Asia	Adriahna		Winter	

Goal for multiplication and division unit: For the next two weeks we will discuss multiplication strategies and the relationship between multiplication and division. For my low group we will use manipulative and they will make strategy flashcards during differentiated math time. My high group will work with enrichment practice during differentiated math time. In two weeks I would like to see every student move out of the 0-3 problems correct category.

Post-test given November 10 th				
Number of Problems Correct				
0-3	4-7		8-12	
	Adriahna		Chiya	
	Sonya		Jescey	Bettie
	Madison		Ashley	Ray Asia
	Mark		Nathanial	Adisen
	Sam		Lily	Victoria
	Kevin	J.J	Caitlyn	Winter
	Ismael		David	Jaylynn
			Quintin	Eric
			Julia	John

Reflection: Overall I am pleased. Some students such as J.J in red was a concern. He was the only student who showed no growth on the test. J.J is diabetic and is incredibly bright, but struggles with math. He sometimes will leave class during math instruction to go see nurse due to feeling low. He is missing on average about 10-15 minutes math instruction each day. I am going to talk to Nurse Patty and J.J to see if we can figure something out.

Adriahna is another Student who showed little growth. She struggles with basic multiplication facts and her mother has addressed her concern. They are going to practice with flashcards and Adriahna is going to start after school tutoring in the next week.
